

Intentions

Big Boi

Where'd you go? I can't find you, this room so crowded
And will I ever find another? I seriously doubt it (I seriously doubt it)
Now I'm screaming "Where are you?"
I'm screaming "Where are you?"

I got every intention, tonight
Baby, you are my mission, let's do it right
I got every intention, tonight
Baby, you are my mission, let's do it right

And the beat goes, I'm in black LaMode
Drop my things and go for the neck
Attacking them hoes, I'm macking them though
My vernacular's immaculate, spectacular pro-fessional
Snatchin' her soul
Let me smash her mind, I get her diamonds, she get that dick from behind
No dine and dash, the climax is ooh lord
Splash, got me chasing waterfalls
Some niggas do anything for the drawers
Nah, pause, not me
Gotta be the right her, the one you fight for
This that uppercut, make a nigga wife her

Now I'm screaming "Where are you?" Oh, ooh

I got every intention, tonight
Baby, you are my mission, let's do it right
I got every intention, tonight
Baby, you are my mission, let's do it right

Baby, stop playing
I been watching you
And I know, you been watching me too
Baby, what you wanna do?
What you wanna do, babe? (What you wanna do, baby?)
My car's outside, lets go take a ride
Where we goin' Clyde, baby, you decide
It's all on you, what you wanna do?
Just know it's my every intent to get to you

I got every intention, tonight
Baby, you are my mission, let's do it right
I got every intention, tonight
Baby, you are my mission, let's do it right

First I saw you standing there
Then I watched you disappear
I remember vividly, oh
But now it seems it's getting late
So bartender, give it to me straight
She's gone isn't she?
Oh, her hair was sandy brown
And she sure know how to get it down
We only danced one time
Why did you have to go?
Guess I'll never know
Ooh, let's do it right

I got every intention, tonight
Baby, you are my mission, let's do it right
I got every intention, tonight
Baby, you are my mission, let's do it right
