Big Boogie

(Yeah)
(Big dude)
(Mm mm mm mm mm mm mm)
(Big dude)
I loved the wrong person before
They left me for dead like I weren't worth it no more hmm
Have you felt your heart drop before? That shit give you vibes
like you don't want it no more hmm mmm
People lost they play in them folks
That's why I'm so mean, regret I trusted some folks (yeah)
I stay to myself while I grow
Cause God don't play bout me fa sho, I know that he do

Damn I feel stupid feeling like a groupie
Told that girl I love her, she responded "I can't do it"
My heart full of trust issues, she done lead me to it
Got me double texting her phone, got me looking foolish
How she play a role in my eyes she can play a movie
Took my feelings out of my body, had to remove it
Fuck it
She don't really trust me
Knowing they can't touch me
Spot in my heart, you lucky
Every time I get in my feelings you disgusted
I know I fuck up
If I fix it, you still goin judge me
I can't have a female as a friend, they wanna fuck me
I can't see through anything I love because I trust it
If we need talk
Let's do it right
Without the judgements
She said I'm a dog
I never bit, I'm just a puppy
I ain't never gave up on nobody, cause I'm thuggin
I need a soul to keep me clean if I'm musty

Relationships a problem, but you make it harder
Always think you right and never wrong, you think you smarter
You always stopping my energy, you cut my charger
I need you to stand 10 on my name like you my lawyer

I'm grown now, I'm not a child
I ain't felt love in awhile
I'm tired of women putting me down
I could be a husband if I smiled
