Baby Boy

From the day that I saw you I knew that we would pursue Cause the chemistry we felt that day Felt so real, and so true Looking back on a year we spent together How it's been, what we went through Although we've had our little ups and downs We've still pulled through

Baby girl you're my world my everything I wanna lace you with diamonds and every ring Give you everything you dream and fantasize Cause you can tell me that you love me Looking in my eyes You keep it real with me, I keep it real with you You keep on loving me, I'll keep on loving you Keep doing what you do, I feel your whole aura And I can't wait to hook up again tomorrow baby - what

My love for you will never end You'll always be a part of me As long as time keeps on passing by You'll always be my baby boy.

Everytime I look at you, I can't believe I've found a love so true (and) I took my time to put my trust in you I must admit it was so hard to do And every minute that I spend with you You make me believe I have nothing to loose and Deep down I always knew that you would be mine

Do you believe in destiny Because I got a funny feeling this was meant to be Without you I'd be lost, I need you next to me Preferably in the house full of luxuries and little kids **Big Brovaz**

From day one I was sprung, knew you was gonna be one Cause my heart spoke for the very first time in a long while And every time you smile, I can see us walking up the aisle with you carrying my child C'mon

If you were to go, I don't know You're the only one who sweeps me off my feet Makes my soul go weak The only one who makes my heart wanna beat and I, I could never live without you You know that what I feel has to be true Cause you're my, my sweet love

Ever since the first time, that I looked into your eyes I knew that you were gonna be mine Feeling you from the inside, when you're not by my side You're the only girl that's on my mind I never knew a love like this, a love so strong A vision so picture perfect it could never be wrong Along the way, you're gonna see you belong with Jay I might have to marry you one day baby eh..
