

Chesters Farm

Big Country

Black cars come and black cars go
Full of secrets you will never know
Tires hiss in the rain be feels through the night?
Shadows move behind the glass, no one worries no one asks
Politions come and go so fast...

I don't mean to do no harm i don't wanna cause alarm
I try to be cool i try to stay calm
But something weirds going on at Chesters Farm...

This is the place where the monkeys die
This is the cage where the mutants fly
On the wings on a industry funded research lay
This is where the tests are made
Where are finest minds parade
Upon the planet fools have paid have made...

I don't mean to do no harm i don't wanna cause alarm
I try to be cool i try to stay calm
But something weirds going on at Chesters Farm...

I don't mean to do no harm i don't wanna cause alarm
I try to be cool i try to stay calm
But something weirds going on at Chesters Farm...

Something back and the bugs gone wild
The biological demon child
Its alive and among us resistance is futial...

I don't mean to do no harm i don't wanna cause alarm
I try to be cool i try to stay calm
But something weirds going on at Chesters Farm...

I don't mean to do no harm i don't wanna cause alarm
I try to be cool i try to stay calm
But something weirds going on at Chesters Farm...
