Dive In To Me

Big Country

It was a long hot day At the end of the Summer I had a chill in my heart Like the start of the Winter

And I didn't know what to wear I wasn't sure what to say I was standing alone At the tail of the river

Dive in to me - into the raging sea Follow your heart down where it's deep And it's dark Dive in to me - into the healing sea Put your life into my hands And take a chance Dive into me

So we loaded up the car Drove deep into the mountain Where the river was born In time's holy fountain

And we spoke about how it ran All the way to the ocean Trusting it's path To a natural motion

Dive in to me - into the raging sea Follow your heart down where it's deep And it's dark Dive in to me - into the healing sea Put your life into my hands And take a chance Dive into me

Sometimes swirling waters drag you down Knowing how to swim doesn't mean You'll never drown Come the storm, you hold in fear Whoever's by your side Sometimes you're just drifting in the tide

Dive in to me - into the raging sea Follow your heart down where it's deep And it's dark Dive in to me - into the healing sea Put your life into my hands And take a chance Dive into me
