

## Praise You

**Big Daddy Weave**

I have walked in the sunlight where Your blessings abound  
I have been through the dark night where troubles are found  
On the heights of rejoicing from the depths of my pain  
Let the song that I'm singing remain the same

Praise You, Praise You  
Son of God, Son of Man  
Praise You, Praise You  
I'll join the song that will never end

In the valley of shadow I won't be afraid  
For Your goodness and mercy are following me  
Let that valley of shadow be an altar of praise  
and the song that I'm singing forever be

Praise You, Praise You  
Son of God, Son of Man  
Praise You, Praise You  
I'll join the song that will never end

Blessing and honor and glory and power [x3]  
Be unto our God

This body may falter  
My flesh become weak  
These days are so fragile  
And this life I will leave  
But when my day comes Lord  
Give me one smile from Thee  
And I'll love You my Savior for eternity

Praise You, Praise You  
Son of God, Son of Man  
Praise You, Praise You  
I'll join the song that will never end

Praise You, Praise You  
Son of God, Son of Man  
Praise You, Praise You  
I'll join the song that will never end

I'll join the song that will never end [x2]
