Your Love Changes Everything

Big Daddy Weave

My soul was a raging sea
Then You reached out to me
Pulled me up from the waves
Safe from the storm
I was an orphan child
Running alone and wild
You took this hopeless heart
And gave me a home

Your love changes everything
Your grace covers all I've done
And I'm standing here today
All because of Your great love

I see Your nail-scarred hands
I see Your open arms
You call me just as I am
Cause Jesus, that's who You are
Now nothing can separate
Nothing can stand against
The power that overcame the grave
Is giving me life that never ends

Your love changes everything
Your grace covers all I've done
Your mercy has washed away
All the lies of who I was
I'm free from the guilt and shame
With all of my chains undone
And I'm standing here today
All because of Your great love

And I will never be the same
I will never have to wear those chains again
My freedom is won
Because of Your love

And I will never be the same
I will never have to wear those chains again
My freedom is won
Because of Your love

Your love changes everything
Your grace covers all I've done
Your mercy has washed away
All the lies of who I was
I'm free from the guilt and shame
With all of my chains undone
And I'm standing here today
All because of Your great love

And I'm standing here today All because of Your great love
