## Big Data

I feel so much better today  
Now that you're mine  
Couldn't do it alone  
And I never will again

You're my eyes, my feet, and my hands  
The thoughts in my mind  
I don't even have to try and make me better than I am  
Than I am  
So much better than I...

Automatic  
I give up, give up  
Here I am, don't you want me to do it again  
(It's automatic, it's automatic)  
Here I am, cause you need me to do it again  
(It's automatic, it's automatic)

I feel so much lighter today  
Now that there's time  
Can't remember my name  
But you can tell me who I am

There's no shame in making it easy  
(It's not easy)  
I don't even have to try  
You do it better than I can  
Than I can  
So much better than I...

Automatic  
I give up, give up  
Here I am, don't you want me to do it again  
(It's automatic, it's automatic)  
Here I am, cause you need me to do it again  
(It's automatic, it's automatic)  
(All let go) I'm ready  
(I know) If you let me  
(Take control) Just forget  
It's all automatic

I'll be the one to make your heart beat right  
Walk you in circles, I'll speak your mind  
I'll breathe your air to make you feel alive (ooh)  
(Automatic)  
I'll be your feeling, you're skin and I'm rose  
Pay no attention, be your house and home  
I'll keep your company  
You'll never be alone

Automatic  
I give up, give up  
Here I am, don't you want me to do it again  
(It's automatic, it's automatic)  
Here I am, cause you need me to do it again  
(It's automatic, it's automatic)  
(All let go) I'm ready

(I know) If you let me  
(Take control) Just forget  
It's all automatic

I feel so much better today  
Now that you're mine
