I feel so much better today Now that you're mine Couldn't do it alone And I never will again You're my eyes, my feet, and my hands The thoughts in my mind I don't even have to try and make me better than I am Than I am So much better than I... Automatic I give up, give up Here I am, don't you want me to do it again (It's automatic, it's automatic) Here I am, cause you need me to do it again (It's automatic, it's automatic) I feel so much lighter today Now that there's time Can't remember my name But you can tell me who I am There's no shame in making it easy (It's not easy) I don't even have to try You do it better than I can Than I can So much better than I... Automatic I give up, give up Here I am, don't you want me to do it again (It's automatic, it's automatic) Here I am, cause you need me to do it again (It's automatic, it's automatic) (All let go) I'm ready (I know) If you let me (Take control) Just forget It's all automatic I'll be the one to make your heart beat right Walk you in circles, I'll speak your mind I'll breathe your air to make you feel alive (ooh) (Automatic) I'll be your feeling, you're skin and I'm rose Pay no attention, be your house and home I'll keep your company You'll never be alone Automatic I give up, give up Here I am, don't you want me to do it again (It's automatic, it's automatic) Here I am, cause you need me to do it again (It's automatic, it's automatic) (All let go) I'm ready

(I know) If you let me
(Take control) Just forget
It's all automatic

I feel so much better today Now that you're mine
