Where you go I'll follow
I'll follow you, I'll never stray
So lead the way, lead the way
Lead the way-ay-ay

Escape with you in a moment Close my eyes anywhere but here Far away, far away I'm far away-ay-ay

You've got something about you I can't wait to try you on

I-I-I wanna see through you I-I-I wanna feel it too You-ou-ou are clear to me My reality Wanna see through you

They pull me back out of concern But every night I return I know the way, know the way I know the way-ay-ay

If they don't believe they'll never see
Never see what you do to me
So run away, run away
I'll run away-ay-ay

Because there's something about you I can't wait to try you on

I-I-I wanna see through you I-I-I wanna feel it too You-ou-ou are clear to me My reality Wanna see through you

Oh oh oh Wanna see through you Oh oh oh

There's just something about you I can't wait to try you on Try you on, try you on Because there's something about you oh Try you on, try you on You've got something about you

I-I-I wanna see through you
I-I-I wanna feel it too
You-ou-ou are clear to me
My reality
Wanna see through you
I-I-I wanna see through you
I-I-I, I wanna see through you
