

Slay

Big Data

I was talking to myself
I belonged to someone else
Hey, can you tell me who is who?
I'll give you a clue

Follow me
'Cause I know you wanna play
Follow me
Don't you know I came to slay?

We looked just like each other
He was something like a brother
You, now you know my face
I'll show you the way

Follow me
Don't you know I came to slay?
Follow me
'Cause I know you wanna play
It's not a dream
Believe me when I say
Don't you know I came to slay?
To slay

Not a dream
You followed me, you made me feel alive
Not a dream
And I'm so glad to have you by my side, ooh yeah
Not a dream
And it's turning out exactly as I planned
Not a dream
And I got you eating out the palm of my hand
Not a dream
They can't take it back, I'm taking what is mine
Not a dream
And I'll be right here until the end of time

Follow me
Don't you know I came to slay?
Follow me
'Cause I know you wanna play
It's not a dream
Believe me when I say
Don't you know I came to slay?
To slay
