

Hanging On

Big Dismal

I close my eyes
And everything feels so right
Like a magic carpet ride
We fly away up high

And never come back down
We'll keep this peace we found
And you're always there

To love me when I'm feeling down
When no one else will come around
Every night you're always there
I need to know how much you care
You keep me hanging on and on
You keep me hanging on

The sun will rise
And I'll open up my eyes
But it all looks the same
As it did yesterday

And you're always there
To love me when I'm feeling down
When no one else will come around
Every night you're always there
I need to know how much you care
You keep me hanging on and on
You keep me hanging on

I can't take anymore
Is this worth trying for
You keep me hanging on and on
You keep me hanging on
