

## Robot

## Big Dumb Face

This battle has raged for too long,  
but we'll soon right what went so wrong,  
you see we found a faster feces,  
faster morning for the freebees,  
kill the bastards want to die?  
Use your knif to stab his eye,  
they made us mad and they will pay!  
Follow me, I know the way...  
Down in here there is a key that we hide  
to they could not see, it's right in here,  
and this is where we'll find our key,  
we're almost there,  
the key is used to turn a lock that  
activates a huge robot,  
and this robot will kill them all,  
with one huge smash,  
we'll watch them fall!  
thank you Robot...
