

Baad

Big Gigantic

You been here too many times
Guess until you get it right
Hate on everything you see
But keep your eyes away from me
And my woman
She's too bad, bad
(Oooh)
She's too bad, bad

You just mad
Cause my girl too bad
You just mad
Cause my girl too bad

Why you standing there with your face screwed up
I forgot you sipping syrup
On me you tried to lean but I'm way boo up
Or at least enough to make you jealous, girl so sorry
She more Rih than reject
Least we at a party
Only one me but you can keep on swimming
So leave the convo flat like shoes
Less them heels plan to move
And sneaker right up out the room
I seen you tweeting pictures with your mood
When you should take advantage of the free goose
Dive in like pools
Slight cool, till you showed your true colors
Towards a fly motherfucker
Not an arrogant brother
But ain't a girl bad as my woman

You just mad
Cause my girl too bad
You just mad
Cause my girl too bad
He just mad
Cause my girl too bad
She just mad
Cause my girl too bad
