

Brighter Future

Big Gigantic

I'm tryna watch the sun rise to the top of the night
Another day to bring
Wishing that I knew
What's to come what it's like
If we'd have it our way

Counting our sevens cuz we need them here
We always need 'em to fix our fair
We know that we want it
Nothing more to add
This brighter future got us minded

Of what we see
And of what they forgot
We a'int free
No we're an empty thought
So we've blinded our eyes
With a brighter disguise
Tell me do you wanna feel what I'm seeing through

My feelings getting tougher every story I hear
Endings always clear
The reasons seem so blurry why life's so severe

Counting our sevens cuz we need them here
We always need 'em to fix our fair
We know that we want it
Nothing more to add
This brighter future got us minded

Of what we see
And of what they forgot
We a'int free
No we're an empty thought
So we've blinded our eyes
With a brighter disguise
Tell me do you wanna feel what I'm seeing through
