

Keep On Rising

Big Gigantic

Well I'm just a lonesome dreamer
Traveling down a dusty road
All I have is ambition in my hand
And a heart full of hope
I can see tomorrow clearly
Feel the future in my bones
And I'll never forget, those words keep ringing in my head
That mama said just before I left home

Love your life, live your dreams
Do your best at everything
Don't give up, never stop
Keep on rising

We gon' keep on rising
We gon' keep on rising
We gon' keep on rising
We gon' keep on rising
We gon' keep on rising
We gon' keep on rising
We gon' keep on rising

To the top, to the top, to the top
Higher and higher
To the top, to the top, to the top

Finally found me some direction
Now I know where I need to go
And I learned that all the answers you've been searching for, my friend
Are deep within somewhere the wind will never blow

Love your life, live your dreams
Do your best at everything
Don't give up, never stop
Keep on rising

We gon' keep on rising
We gon' keep on rising
We gon' keep on rising
We gon' keep on rising
We gon' keep on rising
We gon' keep on rising
We gon' keep on rising

To the top, to the top, to the top
Higher and higher
To the top, to the top, to the top

Love your life, live your dreams
Do your best at everything
Don't give up, never stop
Keep on rising (to the top)

We gon' keep on rising
Higher and higher

Love your life, live your dreams

Do your best at everything
Don't give up, never stop
Keep on rising

To the top, to the top, to the top
Higher and higher
To the top, to the top, to the top
To the top, to the top, to the top
