

Losing My Mind

Big Gigantic

It's been dark lately
My head is filled with smoke these days
The world's gone crazy
Where do we, where do we, where do we go from here
Feels like we're waiting
On anyone who's listening
To come and save it
So where do we, where do we, where do we go from here

Sleepwalking down the side road
Hard to believe we'll get there soon
Dragging my feet for miles
And I'm

Losing my mind
Looking for the light at the end of the tunnel
I just wanna hide instead of facing my troubles
Yeah, I'm losing my mind
They say it gets hard before it can get better
Living in the dark but it can't rain forever

Yeah yeah yeah, yeah yeah yeah

Spinning in them circles
What's life gonna throw at us next
Sinking down further
Where do we, where do we, where do we go from here
All of the voices they get to your head
Feeling so helpless, just doing my best
To spread some love
Yeah, where do we, where do we, where do we go from here

Sleepwalking down the side road
Hard to believe we'll get there soon
Dragging my feet for miles
And I'm

Losing my mind
Looking for the light at the end of the tunnel
I just wanna hide instead of facing my troubles
Yeah, I'm losing my mind
They say it gets hard before it can get better
Living in the dark but it can't rain forever

Yeah yeah yeah, yeah yeah yeah

Yeah, we've been living in the dark, living in the dark
Living in the dark but it can't rain forever, oh-oh
