

## Mind

### Big Head Todd and the Monsters

When can I come  
Up to your room?  
Where I belong  
Already begun  
You're making me swoon  
You made me turn on

I know you're uncertain  
But please believe in me  
And lighten your burden

Don't roll me off the side of the road  
I'm the only love who's gonna drive you slow  
Woman don't you think you wanna ride beside me  
I don't mind

Baby I won't give you my heart  
But I'll give you my mind  
A hearts only led me to to the darkest parts  
But my mind is just fine

We are the ocean  
It can't be undone  
Woman you've broken me open

Don't roll me off the side of the road  
I'm the only love who's gonna drive you slow  
Woman if you think you wanna ride beside me well  
I don't mind

Lie to me if our chance is burning (Lie to me)  
Galaxy of love is too quick returning (Galaxy)  
I can't win if you leave me alone (Can't you see?)

Don't roll me off the side of the road  
I'm the only love who's gonna drive you slow  
Woman if you think you wanna ride beside me  
I don't mind

Don't roll me off the side of the road  
I'm the only one who's gonna drive you slow  
Woman if you think you wanna ride beside me  
I don't mind  
I don't mind
