

## People Train

### Big Head Todd and the Monsters

Don't wanna ride on no people train  
I wanna leave when I wanna  
I want to arrive in my automobile  
I wanna leave when I want

Don't wanna ride on no people train  
I wanna leave when I wanna  
Don't mind if I die in my automobile  
I wanna leave when I want

My ex put sugar in the gas tank  
Put a key to my two-tone sparkle paint  
Kicked her spiked metal heels on my wood dash  
Said I owe ya but I'm outta cash

Then we went to overheatin' from a cold start  
Fillin' 'er up with premium and a light heart  
Then it was time to put the shifter into overdrive  
Feel the mighty mighty power of the 'lectraglide

Don't wanna ride on no people train  
I wanna leave when I wanna  
I want to arrive in my automobile  
I wanna leave when I want

Don't wanna ride on no people train  
I wanna leave when I wanna  
Don't mind if I die in my automobile  
I wanna leave when I want

Motorcycle, twenty-wheeler, or a limousine  
In the slow lane on the back streets  
Don't you know we're just headed for a breakdown  
The whole world headed for a breakdown

Ain't green 'cause I'm addicted to the fossil fuel  
Any speed I can't get there too soon  
Red light, city traffic, one headlight  
Black gold, canary in a coal mine

Don't wanna ride on no people train  
I wanna leave when I wanna  
I want to arrive in my automobile  
I wanna leave when I want

Don't wanna ride on no people train  
I wanna leave when I wanna  
Don't mind if I die in my automobile  
I wanna leave when I want
