

## Trip

### Big Head Todd and the Monsters

You made me trip, so fine  
I lost my trouble worried mind  
You made me trip to another land  
I left my body when I took your hand  
When I took your hand

Every time you turn your lamp down low  
I'm at your door  
No other place to go  
You said, "I can't seem sleep myself so why don't we take a drive?"  
Get lost for a little while  
(Lets get lost)

You made me trip, so fine  
I lost my trouble worried mind  
You made me trip to another land  
I left my body when I took your hand  
When I took your hand

You drove so fast I could no longer fear  
The world holding me back with its  
Angry every day gravity field  
You drove me so far in the night when you said  
"Why don't you take the wheel?"  
Why don't you take the wheel?

You took me so far baby  
I feel my senses fading  
So high I'm thinking  
Is it you on that trip drive me crazy?  
So fine)  
(I left my body)  
(When I took your hand)  
I left my body
