

Under Your Wings

Big Head Todd and the Monsters

The eagle flies over the valley
With the broken hearted stuck down below
So far above the rattle of
White lies and fool's gold

I see freedom coming when we break up
We might see the light and wake up
I'm falling, I'm flying
Under your wings tonight

He said she said situation where
Only a telepath can know
I lost my keys on a
Hitch hiking down such a lonely road

I see freedom coming when we break up
We might see the light and wake up
I'm falling, I'm flying
Under your wings tonight

Fly me to the other side
Let your engines open wide
To the other side
Under your wings tonight

I see freedom coming when we break up
We might see the light and wake up
I'm falling, I'm flying
Under your wings
I'm soaring
We're rising
We're flying
Under your wings tonight
Under your wings tonight
