

# Baby Don't Do It

Big K.R.I.T.

Yeah shawty I know I made some mistakes  
To get ya back I do whatever it takes  
Yeah shawty I know I made some mistakes  
To get ya back I do whatever it takes  
Don't do it, don't give a nigga up like that  
Don't do it, don't give a nigga up like that  
I was gon' get right back  
I was gon' get right back

I did you wrong I hurt your heart and I apologize  
Wish I was [?] cause I can see with no other guy  
I wouldn't have left them other hoes alone if I didn't care  
Last night I came home and you wan't there  
I blame myself for all the tears that you cry shawty  
I did this music cause I knew that you would ride shawty  
We talked all about the tour dates and pre-shows  
You said you wouldn't be concerned with all them groupie hoes  
But then you start trippin' fighting with me actin' funny paranoid thinkin t  
hat you seen me with another woman  
I though you didn't trust me so I made a grave mistake  
I met up with a shawty that I knew around the way  
But now it's too late, yeah and the damage done  
The weight [?] do you wrong is on my shoulders and it weighs a ton  
But I can't take it back but what we had I can't lose it  
I'm crying out just like this track baby don't do it

Yeah shawty I know I made some mistakes  
To get ya back I do whatever it takes  
Yeah shawty I know I made some mistakes  
To get ya back I do whatever it takes  
Don't do it, don't give a nigga up like that  
Don't do it, don't give a nigga up like that  
I was gon' get right back  
I was gon' get right back

I tried my best did my best wasn't good enough  
3 years shawty why the hell you givin' up  
You're mamma told me that you cry 'bout it every night  
Friends remind me when they see me that I wasn't right  
You never miss something good till it's gone  
Without you in my life girl this house ain't a home  
This music ain't in me and the money ain't worth it  
When it was me and you we were oh so perfect  
Ay this is real, this is now, this is how I'm feeling  
No worries, just chilling that's how we be living  
But now the shifts twisted  
And yee ain't gettin' back  
I threw away what we had but I can get it back  
And all you need is time  
And imma be around  
I'm only human and I'm sorry that I let you down  
But I can't take it back, but what we had I can't lose it  
I'm crying out just like this track baby don't do it

Yeah shawty I know I made some mistakes  
To get ya back I do whatever it takes

To get ya back I do whatever it takes
