

## Bottom Ain't The Place 4 A G

Big K.R.I.T.

When it's all said and done they gonna see me on top  
With a deal and meal twenty fours on the drop  
Street boys I'm a get it I'm the K-R-I-T  
And the bottom of the game ain't the place for a G

When it's all said and done they gonna see me on top  
With a deal and meal twenty fours on the drop  
Street boys I'm a get it I'm the K-R-I-T  
And the bottom of the game ain't the place for a G

Aye I'm back ho stay on my grind  
Tight as my buzz and then pass out  
Crooks and jackers coming to snatch you through you backdoor  
If you want kings then it's that 'Krizzle that you ask for  
No one attended none of your parties or your last show  
Niggas this slick I keep that biscuit in my dash vault  
Money's a river and can't no man up in my care flow  
Keep my business composed and talk for a little though  
Tell all them fams they having running with the task force  
CD don't sell but it shelves if you don't grind  
Haters so tarnished by all their snitching that they don't shine  
Practice my pimping so when I'm pimping man it's going down  
Either in mine or in your city or your nearest town  
Shaking the block so much that these motherfuckers hear me now  
Hear me from underneath so that mean that I'm still underground  
Really don't bother me because they're still gonna represent a G  
If I don't blow today I'll just get mine in the south scene

When it's all said and done they gonna see me on top  
With a deal and meal twenty fours on the drop  
Street boys I'm a get it I'm the K-R-I-T  
And the bottom of the game ain't the place for a G

Aye I'm back ho stay on my rhymes  
Tight as my buzz and then I get stacked  
Quicker than niggas with smart mouths get their domes cracked  
Keeping my folk that's from Mississippi like I'm supposed to  
If I don't share with you niggas that's means I don't know you  
Tricked out colliders shit really phases me never ever nigga  
Plenty of niggas rapping but clearly I am better nigga  
Boy in the hood I 'puts' it down for the whole block  
Niggas in tracks and then that makes them want to close the shop  
Hate to the bearer of bad news but you ain't me  
Spit out them rhymes and on top of that I make beats  
Nigga the wrists I'll be the next artist to sign a deal  
Put me some twenty fours on that lick it and cop a billion green  
Showing my ass because when I smash niggas better gone  
Why would I need a man the street's got my back 'cuh'  
I got potential to have the mix tape of the century  
If I don't blow today I just get mine on the south scene

When it's all said and done they gonna see me on top

Aye this ain't a game, motherfucker like you thought it was  
Niggas don't compare to the K, they don't ball enough  
Because all the animosity they pile it all  
The game's like some pussy, nigga y'all getting swallowed up  
Because they know I'll have your back all night hard  
And It's gonna cost shit, your rap it's not bars  
You couldn't blow if you had Hov on track, T.I., Nas, Young Jeezy  
And the Holy Ghost on track, and if they did the hook, and Pharrell aced a b  
eat  
Every boss gangster crip'll pumped up a grave street  
Y'all niggas must be tripping he going farther than these groups  
Y'all niggas entertain but I really make music  
I really can't do this I'm respected for mine  
They don't care how much it cost they just want me to sign  
If I let a rap city take their votes in the streets  
I'm the figure on my time, and you sound like (some) mayor links

When it's all said and done they gonna see me on top  
With a deal and meal twenty fours on the drop  
Street boys I'm a get it I'm the K-R-I-T
