

Everlasting

Big K.R.I.T.

Everlasting

If this chemistry we got is everlastin'

Excuse me shawty

I saw you passin'

How 'bout we get stuck together like we off in traffic?

Even if you ratchet or you plastic or classy

I'm askin' if the chemistry we got is everlastin'

If the chemistry we got is everlastin'

If this chemistry we got is everlastin'

If this chemistry we got is, I'm just askin'

I know this sound like one of those love songs

Perhaps it's on time since all the love's gone

And we trap it out, trap it out, but you don't like hip hop

'Cause you don't know what they rap about, nowadays I don't know either

But I ain't like most people

I'ma hit you with that "How you doin'? What you vibin' to and can I vibe with you?

And if the world was filled with flowers surrounded by waterfalls

And mountains despite the fact I just mentioned, can I lie with you?"

Shit, we outside the club though

And I'm knowin' what I'm sayin' make you wonder what I'm at the club for

To tell the truth I barely go out

I know your homegirl, she kick it with my partner, I tagged along with 'em

And they knew a friend that had a friend that I should meet

She don't like clubs, but she fall through sometimes just to see

So I'm guessin' that you her, it's just you and me

Let's skip out on this waterhole and find a place to be

In peace

Excuse me shawty

I saw you passin'

How 'bout we get stuck together like we off in traffic?

Even if you ratchet or you plastic or classy

I'm asking if the chemistry we got is everlastin'

If the chemistry we got is everlastin'

If this chemistry we got is everlastin'

If this chemistry we got is, I'm just askin'

Ayy, excuse me shawty, if you don't mind me

Pointing out the fact you're just my type

I mean my type like when God broke the mold and designed you

From head to toe He know I'd fall in love with ya at first sight

I know that ain't no gangsta gangsta shit but I figured you hear

"I'm a hood nigga, fuck with me, damn you bad shawty" all the time

Don't get me wrong, that was me as a teenager

But I'm grown now and I think you deserve a better line

But not "line" like spit game, more like spiritual flames

To ignite the natural high that we all got

I know your homegirl told you don't fuck with us country boys

'Cause we players, but we all not

Now I admit I ain't perfect but who is nowadays?

A man can break your heart all sorts of kinda ways

But if you take my number down and hit me when you home

I can promise you I ain't shit like Tyrone

Excuse me shawty
