

## Moon & Stars

Big K.R.I.T.

So I ride I Lean I crawl  
Do it better than them all  
Let the road be my guide  
As I glide in candy cars  
Underneath the moon and the stars

My digital dash  
As I mash on the gas  
Don't know where I'm going fast  
But I'm going there  
Stop at the club  
Forever show some hoes in there  
Shaking their ass  
Looking for players with doe to share  
But that ain't me tho  
Before I trick on a bust it baby  
I'm outta the door  
If you are looking for savings shawty  
Not your hero  
More like a guide  
I can take you where you want  
Would you look in my eye  
Like you're supposed to

Cold enough to froze ya  
Talking about that pimping  
You already have been exposed  
Far from being sober  
Let's travel into space  
While puffin on this Yoda  
Glowing like a light saber  
Doing what the grownups do  
Be grateful that this game was bestowed upon onto you  
Cause back there man betrators don't try to listen to  
Cause they front  
But they don't do  
What I do  
Cause they will never ever be this

So I ride I Lean I crawl  
Do it better than them all  
Let the road be my guide  
As I glide in candy cars  
Underneath the moon and the stars
