Get at me, get at white
So throwed off the drank that I'm outta sight
Pushing buttons catic on the crush
I clack and bust as they claim they wanna fuck the night
Riding dirty, super tight
I put the pressure on the fizzler when she on the light
I'd ask any nigga with a playa voice
I had ya'll thinkin I'm Barry White
Pop up twice, I ain't tripping no good,
Time and rotation, the bass still buzz
Old school whip with the AC cut,
Killer but you'll never get your fist don't touch
Hit the floor, you better get the flow
I got bands to spend, they got what to show
You can buy but gold, but I'm grain grippin'
Trunk shaking like a chunk of cocaine with it.

I always want them rubbers, riding on some choppers,
Parking lot walk, fell my trunk go like a blocka blocka
I beat the base, wussup? Might catch a chase,
Broking up the bank and put it in their face
Ever since I wrote it was the dole on transform
I fold the poured, them niggas had to had,
Rims on gold, I hit to slow my foes up
Cause the puddle is deep and I can't let them scrape
Hear my tape not, till my tape pop,

Hitting down them fucking rocks, who kind of rolls and more than 8
