

# Neva Go Back

Big K.R.I.T.

Neva go back, neva go back, yeah, yeah  
Sometimes I wish I was a kid again,  
When I wore my friends and nails, up and down the street  
Waiting on the ... ring, riding on the school bus, trying on the seats  
On the phone all night with the girl I like that she claims she's free  
It's straight I would neva go back, I could neva go back, but it would be cool to see

Some time, get up off my ass and mash for cash  
No time to becrasting(?) me  
Yeah, I'd rather drink a but they have to wait  
I write a book it's kinda of rusty but I blast the base  
On the road again for the prods we in  
The block used to be sunny but they snowed it in  
Now the junk is great taste for the dollar menu  
That's what he said, but the rock is what he really into  
Gave him a dollar anyway, cause who knows  
Maybe the dope boy baby needs some new clothes  
Could we all go and through it, no matter how you view it  
Slice it, cut it, bring it back or screw it  
Hot as ever been but I'm cooling it ah  
They see never works on my window, dime(?)  
Not worry, kids will reset the days, reminiscence good  
While I used to run in places sometimes

Sometimes I wish I was a kid again,  
When I wore my friends and nails, up and down the street  
Waiting on the ... ring, riding on the school bus, trying on the seats  
On the phone all night with the girl I like that she claims she's free  
It's straight I would neva go back, I could neva go back, but it would be cool to see

Grab my on the go, cooking in the kitchen something good for my soul  
G.I. Joes on a hundred room flow  
It seems like yesterday, but she passed so long a go, good heavens  
I wanna go to church but ain't no good  
She probably no menage cause I know better  
But I push on, searching for some cush on  
To pay the busing responsibilities that I diss on  
Now the part the pissing ain't the tree to piss on, the devil come around too much  
I'm hardly get going  
But it's hard to get off when you can't get on  
I brought my life on this nobody listens songs  
So I cruise, me and just my blues  
Looking at the world through my broken rear view  
Not worry, cause I pray for better days, reminiscence good how I used to run in places sometimes

Sometimes I wish I was a kid again,  
When I wore my friends and nails, up and down the street  
Waiting on the ... ring, riding on the school bus, trying on the seats  
And the phone I like with the girl I like that she claims she's free  
It's straight I would neva go back, I could neva go back, but it would be cool to see

It's living outside in the garden, in the garden

My brother you shouldn't pay his daughter..., his daughter  
This ...game for human spin in change, I would spin  
They would they would live in, they would live in  
I wanna go back, I wanna go back  
I wanna go baby, I wanna go back  
Baby, baby, I wanna go back  
Yeah, yeah

Sometimes I wish I was a kid again,  
When I wore my friends and nails, up and down the street  
Waiting on the ... ring, riding on the school bus, trying on the seats  
On the phone all night with the girl I like that she claims she's free  
It's straight I would neva go back, I could neva go back, but it would be c  
ool to see.
