

Peaceful Revolution

Big Mountain

Peaceful revolution
Peaceful revolution

The situation is in desperate need of reassessment
It seems the people just don't feel at home with the decisions of their government, no
And though the tension rules the land
There's something we've got to understand
To change the problems that we have right now
We've got to use our minds, and not combat

Peaceful Revolution
Cause now we know what we're fighting for
Peaceful revolution
Our future looks bright as gold
Peaceful Revolution
This is a time for peace, can't afford no war

If we could find the roots of our conscience
I know the path that we take will be right
Then we can start on a brand new tomorrow
Push all the negative vibrations aside
We must forgive, what's done's been done
Let's clear the air, and the truth will come
The time for unification is now
And guess what? The most high is gonna show us how...
No more puttin' off for tomorrow
What we can accomplish today
Enough with all this procrastination
We've got a beautiful world to save

Peaceful Revolution
'Cause now we know what we're fightin' for
Peaceful revolution
This time we're gonna unite for sure
Peaceful revolution
The future looks bright as old
Peaceful revolution
We can't accept the story we've been told

Only Jah Jah's wisdom can show us our way
Prime ministers, and presidents
They only try to confuse the day
Gotta be awake before the daybreak
I think I can see a ray of sunshine
Selfishness and pessimism, don't you know
They will be out of style... inna peaceful revolution
'Cause now we know what we're fightin' for

Peaceful revolution
Jah gonna lend us a hand, to help us endure
Peaceful revolution
The future looks bright as gold
Peaceful revolution
This is a time for peace, no time for war
Peaceful revolution
'Cause now we know what we're fightin' for

Peaceful revolution
Peaceful revolution
Our future looks bright as gold
