People Lullaby

Big Red Machine

I used your hands
On my head
I used your heart
To calm my bed
Well, I used to know, know, know
How not to fix it up
Aw, baby
Aw, baby

Well then you two came along
With your safety and poise
To bring me a new colour
To wind around from waist
Snakes
Lovers
All in a race

Has me all borderline – re-erased
Has me all borderline – re-erased
Has me all borderline – re-erased
Has me all borderline – re-erased
Has me all borderline – re-erased
Has me all borderline – re-erased
Has me all borderline – re-erased
Has me all borderline

Dawn tunnel
Plowing the cloud
Found me a new lawn robe
Only fools get gold
They show you films of all places
Well it's alright
I miss Mike Stipe
