

## Find a Heart

Big & Rich

Lord knows I ain't perfect  
I make my share of mistakes  
You fall down you get right back up  
You do whatever it takes  
Life don't come so easy  
Ain't no handbook ain't no map  
You're kinda on your own  
In the great unknown  
And there ain't no turning back

And if you get lucky  
You just might fall in love  
When it hurts so bad  
That's when you'll know it's real  
'Til it's worth the pain  
You're just walking in the dark  
That's what it takes to find a heart

Everybody's searching  
But they seldom look within  
To find the key to unlock the door  
And let emotions in  
It's the only thing that matters  
But it's the hardest thing of all  
To lay down your pride  
And try not to hide  
Behind some silly wall

And if you get lucky  
You just might fall in love  
When it hurts so bad  
That's when you'll know it's real  
'Til it's worth the pain  
You're just walking in the dark  
That's what it takes to find a heart

And if you get lucky  
You just might fall in love  
When it hurts so bad  
That's when you'll know it's real  
'Til it's worth the pain  
You're just walking in the dark  
That's what it takes to find  
That's what it takes to find  
That's what it takes to find a heart
