

I'm melting away
As you rush through your morning
Forget our sweet nothings
Alone in your kitchen
Denying me
Is your daily ritual
Coffee and crumbs
And a coating of lipstick

I was right there in your arms
From birth into love without binds
The chemicals fire into life
To wake at all
Is to wake in fright

Ooh

Eight in the morning
Your buzzer demands
Wrenching you from me
As man squashes ants
Leaving me here with your imaginations
The eternal tension
Is all 'round me bubbling

I wait
Suspended in time in your brain
F. A.
Fuck all to do while you wake

Baby, baby
I'm not a dream
I am a realer
Reality
Baby, baby
I'm not a dream
I am a realer
Reality

I was right there in your arms
From birth into love without binds
The chemicals fire into life
To wake at all
Is to wake in fright

Ooh

I wait
Suspended in time in your brain
F. A.
Sweet fuck all to do while you wake
