

Firefly

Big Scary

Put it in a letter
Roll it in a tally ho
Leave it in the kitchen sink
You are not the only one
Though it never feels that way
Humming to that song you hear
I think that I can hear it too

Instruct myself
And I'm on, and I'm on...

Caught up in a motion
Swimming through a swirling now
You put it in a bottle
An ocean on a dusty shelf
If you survive
Then we're on, then we're on, and I'm wrong, then we're on...

And I'm feeling all tied up
All I want is a cut
But you're bleeding, now I see
That enough is enough

And I'm on, and I'm on...

Call out to the sages
You're putting out the feelers now
It's 11:11
And silence strikes the dreadful hour
The heavens see that

I'm on but I'm faded, I'm on but I'm faded...

And I'm feeling all tied up
All I want is a cut
But you're bleeding, now I see
That enough is enough

And I'm on, and I'm on...

Like a firefly to the moon
Like a firefly to the moon
Like a firefly to the moon

Like a firefly to the moon
Like a firefly to the moon
Like a firefly to the moon

It's a strange reunion
When two and two equal one
Held up by a matador
No prize for the winning
But maybe I will take a run
Followed by a stinging
Then I hear the crowd roar
Standing at the door

And I'm on, and I'm on, and I'm on

And I'm feeling all tied up
All I want is a cut
But you're bleeding, now I see
That enough is enough
And I'm feeling all tied up
All I want is a cut

And I'm on, and I'm on, and we're on...
