

Got It, Lost It

Big Scary

Think you caught it, think you got it
Think you lost what you had,
will never get back to you.

Think you caught it, think you got it
Think you lost what you had,
will never get back to you.

Why this hurt inside my head?
Nothing can keep you throw it back instead.

Think you caught it, think you got it
Think you lost what you had,
will never get back to you.

Think you caught it, think you got it
Think you lost what you had,
will never get back to you.

Why this pain inside my heart?
No where to run, lets take it back to the start.

It's in my heart, it's in my head
It's in the shape of a false feeling
It's in my heart, it's in my head

Think you caught it, think you got it
Think you lost what you had,
will never get back to you.

Think you caught it, think you got it
Think you lost what you had,
will never get back to you.

Think you caught it, think you got it
(Why this stain upon my thoughts?)
Think you lost what you had,
will never get back to you.

Think you caught it, think you got it
(I feel it hunting me in my dreams)
Think you lost what you had,
will never get back to you.

It's in my heart, it's in my head
It's in the shape of a false feeling
It's in my heart, it's in my head
