

## Ideal

## Big Scary

It's true  
What they say about you  
Intoxicate the whole room  
Well how the hell do you do

The shake that's to the malt  
'Moiselle  
You shake, shake it well  
The vinegar and salt  
Mon sel  
Do you bite  
Pray tell

It's true  
What they say about you  
But this is not about proof  
This is only a tune

You can push uphill  
I'll follow  
You prescribe the pill  
I'll swallow

It's true  
I'm bewildered by you  
Beyond the weight of wisdom  
Please don't break me in two

You can push uphill  
I'll follow  
You prescribe the pill  
I'll swallow

You can push uphill  
You are my ideal  
You prescribe the pill  
I'll swallow

It's true  
What they say about you
