

Good Sh...

Big Sean

The clothes good
The dro good
So we blow good
The mo' good
The hoes good

She say she like to drink
She say she like to dance
Say she got a boy, she ain't worried 'bout a man
She like to get loose, gone off the goose
I'm trying to take her back to the crib if it's true
'Cause I heard she got that good sh'

They seen all the women with
Young, black, and degenerate
Throwing money mama, 'cause it make me feel generous
Name your broad like genesis
Now she wanna get intimate, so I'm gonna get into it
Saw her do her dance, and it ain't too much more to say
Told her we could leave, leave like [?]
Damn, her fine ass coordinate
Head, nails, toes, lipstick
And that girl the shhh
Don't she know who I is?
Ain't she heard of my click?
Don't she know that I'm Big?
Finally Famous
She got that yummy yum, bubble gum
Right under that tummy-tum
And I need [?]

She say she like to drink
She say she like to dance
Say she got a boy, she ain't worried 'bout a man
She like to get loose, gone off the goose
I'm trying to take her back to the crib if it's true
'Cause I heard she got that good sh'

Let me know if that's good sh'
Let me poke if it's good sh'
Let me stroke if that's good sh'
Let me see if it's good sh'
Let me beat it if it's good sh'
Let me eat it if it's good sh'
Let me know if that's good sh'

Now it ain't no comparing me, apparently
That why these hoes won't marry me when clearly
I just wanna get up in they head like therapy
But they ain't getting here from me
You ain't getting here for free
Hoe this is not a charity, no
But I like the way you move
Said I make good music
Know what that mean baby?
That mean cruise ships
First class cruising

Anything amusing
Rocks from the museum
But you only get back whatever you put in
So if you putting out, baby girl get in
Lost in the whip, get lost in the crib
Lost in the sauce, get tossed on a stick
Let me put down that pajami
And feel on the punani
That's where there's a tsunami

She say she like to drink
She say she like to dance
Say she got a boy, she ain't worried 'bout a man
She like to get loose, gone off the goose
I'm trying to take her back to the crib if it's true
'Cause I heard she got that good sh'

Let me know if that's good sh'
Let me poke if it's good sh'
Let me stroke if that's good sh'
Let me see if it's good sh'
Let me beat it if it's good sh'
Let me eat it if it's good sh'
Let me see if that's good sh'
