

## Got Me

Big Smo

A little Bocephus  
A lot of Jack Daniels  
Little bit of Jesus  
Whole lot of scandals  
Living in a hick town  
Lot of growing my own  
Southern fried chicken  
Leaving nothing but a clean bone  
Sucking down suds and sipping on moonshine  
Locking in the hubs  
Slang mud for a good time  
Ain't going down till the sun comes up  
Didn't know if you knew, if you didn't guess what

That's what you got, that's what you got girl  
That's what you got when you got me  
That's who I am that's who I am  
As a man I don't know how to not be  
All I want to do is rock you like you rock me  
That's what you got that's what you got girl when you got me

You riding shotgun  
Subs in the back seat  
Rattling windows  
Rolling down main street  
Getting off the grid  
Where the KC's pay off  
Cutting through the dark  
To the barn with the hay loft  
Laying you down  
And giving you my word  
Boys are my boys but baby you come first  
Doing you right like no other can do  
Having your back forever like a tattoo

That's what you got, that's what you got girl  
That's what you got when you got me  
That's who I am that's who I am  
As a man I don't know how to not be  
All i want to do is rock you like you rock me  
That's what you got that's what you got girl when you got me
