

# Livin a Country Song

Big Smo

Oh you know I'm living every word of these songs  
I swear heartbreak ain't got nothing on me  
But you know it's rough when you live in a country song  
Listen up now

And I grew up round the Chattahoochee  
My... mama tried but I was born to boogie  
Wild and free, stubborn in my ways  
The only hell that she ever raised  
Now me and my rowdy friends in low places  
Tip up our solo cups and get waste  
Get a little more than mud on the tires  
Where that corn grows past the barbed wire

Well life got hard for this simple man  
When my girl ran off with my friend  
Damn that's wrong  
Feels like I'm living a country song  
Yeah I work all day, I play all night  
Till the sun comes up or the beer on ice  
Is gone, feels like I'm living a country song

She came crawling right back from her sorted affairs  
I said here's a quarter, call somebody who cares  
'Cause I can die a happy man I'm alright with the way I am  
Mr. misunderstood on a beautiful drug  
High on heartbreak and strung outta love  
Baby homegrown honey don't grow on trees  
Real men love Jesus and Jesus loves me

Life got hard for this simple man  
When my girl ran off with my friend  
Damn that's wrong  
Feels like I'm living a country song  
Yeah I work all day, I play all night  
Till the sun comes up or the beer on ice  
Is gone, feels like I'm living a country song

A country song  
A country song  
Yeah a country song  
Feels like I'm living a country song

She got the money (Every penny)  
And a tattoo (Right there on her back)  
She tried to take the whole damn farm  
And even my pontoon  
She think she got the gold mine  
And gave me the shaft (Come on judge)  
But when it's all said and done  
I'll be the one who's laughing last

I told you life got hard for this simple man  
You know girl ran off with my friend  
Damn that's wrong  
Feels like I'm living a country song  
Yeah I work all day, I play all night

Till the sun comes up or the beer on ice  
Is gone, feels like I'm living a country song

A country song  
A country song  
Yeah a country song  
Feels like I'm living a country song

A country song  
A country song  
Yeah a country song  
Feels like I'm living a country song
