

Retox

Big Smo

Bartender
Pour us up another over here
Let's get this party restarted

That's right
Keep 'em coming baby

Yeah I can feel the sunlight creeping through my window
Last night let me laying on my floor
Who's that sleeping in my bed though
It must have been the last girl that said hello (What's up?)
Headed to the fridge when my feet hit the ground
I got a hangover that I'm tryna shut down
Two shots of whiskey and a cold [?]
And it's back to the bar, we ready for another round

'Cause we were heavy last night with the beer and the shots
And we'll start it up again 'fore the day gets hot
We don't even need to look at the clock
'Cause you know it don't stop, let's start to retox
Keep it going with the [?]
Better bring a Bloody Mary just to start it off
Saddle up and get back on the socks
'Cause you know it don't stop, let's start to retox

Now don't leave us hanging over here
We'll take a couple more
Nice and cold

Now we're drinking Margaritas and pitches of Sangria
Singapore slings with tequila on the side
And them hurricanes got my brain
Lost on the concept of space and time
But we're still going, yeah the party still growing
We just living for the moment while we in our prime
'Cause you only live once so we chalk it all up
In a bottomless cup from morning till night

'Cause we were heavy last night with the beer and the shots
And we'll start it up again 'fore the day gets hot
We don't even need to look at the clock
'Cause you know it don't stop, let's start to retox
Keep it going with the [?]
Better bring a Bloody Mary just to start it off
Saddle up and get back on the socks
'Cause you know it don't stop, let's start to retox

Aw yeah
We feeling it now
Look out, here it comes

You know it's Mr. wild and free, yeah that's me
And the party don't stop I can guarantee
From sun up to last call the whole spot's on fleek
A celebration in the making so call all your peeps
I drink one for breakfast, two for brunch
Three or four more when it's time for lunch

My whole crew gets turnt when I walk in the room
And ladies go crazy when the bass goes boom

'Cause we were heavy last night with the beer and the shots
And we'll start it up again 'fore the day gets hot
We don't even need to look at the clock
'Cause you know it don't stop, let's start to retox
Keep it going with the [?]
Better bring a Bloody Mary just to start it off
Saddle up and get back on the socks
'Cause you know it don't stop, let's start to retox

Aw yea
You know how we party baby
'Cause you know it don't stop, let's start to retox
From sun up to sun up
We gon' get this party restarted
