

Thing for You

Big Smo

Now it was just another Friday night
Thought I'd take a drive and maybe catch me a bite
And I knew a little spot down a couple of lights
Where the music was low and the mood was just right
So I slid into a corner booth
Ordered up a sweet tea, appetizer for two
You was checking me out and I was looking at you
I decided to easy over and talk for a few
Now I'm usually the type to be out at a bar
'Cause the late night scene seems to go too far
And I used to be the type to go where too hard
But here I am and baby there you are

Now I could be wrong, might be right
Never have believed in love at first sight
But I know I'm crazy over you
It's the way you look, the way you move
The way I feel from across the room
Now tell me... and tell me it ain't true
I think I got a thing for you

Now I can't believe in a small town where we both grewed up
That it took this long for us to both show up
And who would've know that over a couple of cups
And so little time we both learned so much
Now you know how these rooms here can talk
Everybody's in this bar watching us like a [?]
And if it's too much to handle I could just take a walk
'Cause I'm sure you got a man and I don't wanna get you caught
But if not then you can just roll with me
Hell I'm parked right outside in that SUV
It's funny times like this I just can't believe
Something so accidental is so meant to be

Now I could be wrong, might be right
Never have believed in love at first sight
But I know I'm crazy over you
It's the way you look, the way you move
The way I feel from across the room
Now tell me... and tell me it ain't true
I think I got a thing for you

You can call it love, you can call it lust
I never was sure what it was
All I knew, it took me by surprise, yeah
From the first hello to the last goodbye
Whenever I'm with you feels like I'm losing my mind
I know, I've got a thing for you
I've got a thing for you

Now I could be wrong, might be right
Never have believed in love at first sight
But I know I'm crazy over you
It's the way you look, the way you move
The way I feel from across the room
Now tell me... and tell me it ain't true
I think I got a thing for you

I think I got a thing for you
