

# Vacay

Big Smo

Lalalalalalala, lalalalalalala  
She said

If I had a genie and she asked  
The three wishes I'd think fast  
Yeah with no hesitation  
I wish life would ever last  
Maybe a great big bag of cash yeah  
But right now I could really use a vacation

It's been a long week, hell it's been a long year  
'Bout to pack it up and I'm headin' out of here  
You can tell the boss man I'll see you in a week or two  
It's payday and my vacay's way overdue  
Button down fly wearin' some old flipflops  
Toes in the sand no need for socks  
It's a party and it's paid in full  
Tell my people I'll be chilling by the pool, c'mon

If I had a genie and she asked  
The three wishes I'd think fast  
Yeah with no hesitation  
I wish life would ever last  
Maybe a great big bag of cash yeah  
But right now I could really use a vacation

Lalalalalalala, lalalalalalala  
She said vacay on the way

I'll be settin' sail with the sun on my side  
Cold drink in my hand not a cloud in the sky  
Five star food, first class view  
A bunch of camp folk come to party with you  
Water so blue you can see the sand  
Turn the beats out loud with the local stance  
To the rhythm that we're feelin'  
Can you feel it too?  
Yeah I want a vacation with you oh yeah

If I had a genie and she asked  
The three wishes I'd think fast  
Yeah with no hesitation  
I wish life would ever last  
Maybe a great big bag of cash yeah  
But right now I could really use a vacation

Lalalalalalala, lalalalalalala  
She said vacay on the way  
Lalalalalalala, lalalalalalala  
She said  
Lalalalalalala, lalalalalalala  
She said vacay on the way  
Lalalalalalala, lalalalalalala  
She said vacay on the way
