Slut

See that girl, watch her dance If I knew her name I wouldn't have to sit on my hands If my mouth don't work I get some help And she don't mind if I don't keep my hands to myself

You're all right You put up such a good clean fight I'm afraid that you lose tonight S-L-U-T She may be a slut but she looks good to me

You're so clean, so refined You don't care to get messy just to have a good time She's got saggy thighs and baggy eyes But she loves me in a way I can still recognize
