

Roads Ahead

Big Sugar

I don't mind, I don't mind the little things
But killing time killing time just kills me
Another day, what do you say
We got roads ahead
I don't know why, I don't know why we do this
We stick it in, we stick it in and do the rest
Another day, what do you say
We got roads ahead
Another day, what do you say
We got roads ahead
Sometimes I get willing,
Sometimes I feel sick
Your own ways make me feel so good
Turn again, turn again, we keep falling down
Once you with me to win, you with me to win
So we steer around
Another day, what do you say
We got roads ahead
Another day, what do you say
We got roads ahead.
