

Round & Round

Big Sugar

Where did the time go?
I swear that I don't know
Turn and look behind
What you think you're gonna find?

Be careful what you say
You said, you were mine today
Scatter your seeds along the road
The wind come blow them away

Round and round
And round and round it goes
Round and round
And round and round I go

Gotta get bolder before I get older
Swear the face is laughin' over my shoulder
Everything I got is all I have to give
And I swear I won't get caught
With no time left to live

Round and round
And round and round it goes
Round and round
And round and round I go
Round and round
And round and round it goes

Where did the time go?
Look back in sorrow
Gotta use my time today
To straighten out my tomorrow

Runnin' down the road
'Cause walking is much too slow
And I won't have time to rest
'Till it's time to go

Round and round
And round and round it goes
Round and round
And round and round I go

Round and round
And round and round it goes
Round and round
And round and round I go
