

## Mend Me

### Big Tent Revival

New Year Eve, and this is what I see  
Staring at these faces staring back at me  
Sometimes insecure, but I know  
Your love is pure  
I am broken--mend me  
Over backwards--bending  
For the love you're sending

All the places that I've been  
Still I can't escape this life of sin  
What I want to do I don't do  
And what I do I don't want to do

Days have come and days have gone  
And still I'm under siege  
Everyday decisions made for which  
Side to alleige  
Sometimes I just sit and cry for  
Words I can't erase  
All I have in this world is the  
Promise of your grace

...You made the universe, and  
You can mend me
