

## Wouldn't It Be Cool

Big Tent Revival

Wouldn't it be cool, if there was no doubt  
Wouldn't it be cool, to find a way out  
Tear down the walls that hold you in  
Between God and sin  
Wouldn't it be cool  
The sun goes down on Babylon  
Those city lights could never last  
Nowhere to go, you travel on  
Running from a nature that's running twice as fast  
Your information - investigation  
Brings you to your praying knees  
The god you made, where is he now  
The Lord Jehovah stands alone  
Tonight the prayer you prayed aloud  
The Holy Spirit took directly to the throne  
Now isn't that cool, there is no doubt  
Now isn't that cool, you found a way out  
You tore down the walls that held you in  
Between God and sin  
Now isn't that cool, isn't that cool
