

Just like that, she is  
I mean  
We are, we are gone  
For good  
For closing my eye  
Too soon  
Missed the room  
Old magpie  
It just passed me through

Oh, when it gets you down  
When you get that notion  
Anyway, you walk around  
Anywhere that you are going  
If you ever wanna come back  
You know my arms are always open

Just like how it used to be, Hayley  
Kicking around, burying the letters we wrote  
Oh, wondering what yours might've said to me  
Mine went  
There are the geese  
Over the trail  
We have the open road

And it gets you down  
When you get that notion  
Anyway, you walk around  
Anywhere that you are going  
If you ever wanna come back  
You know my arms are always open

Just like that, he is holding my hand  
Redirect, rearrange, bringing the moon to land  
Oh  
And oh, and it gets you down  
When you get that notion  
Anyway, you walk around  
Anywhere that you are goin'  
If you ever wanna come back  
You know my arms are always open  
Just like that, he is holding my hand  
Redirect, rearrange, bringing the moon to land  
Oh  
And oh, and it gets you down  
When you get that notion  
Anyway, you walk around  
Anywhere that you are goin'  
If you ever wanna come back  
You know my arms are always open
