

Masterpiece

Big Thief

Years, days, makes no difference to me babe
You look exactly the same to me
Ain't no time, crossing your legs inside the diner
Raising your coffee to your lips, the steam

You saw the masterpiece, she looks a lot like you
Wrapping her left arm around your right
Ready to walk you through the night

You whisper to a restless ear, "can you get me out of here?
This place smells like piss and beer, can you get me out?"
You were asking me, how to get you free
I only know the recipe to roam

You saw the masterpiece, she looks a lot like you
Wrapping her left arm around your right
Ready to walk you through the night

Old stars
Filling up my throat
You gave em to me when I was born
Now they're coming out
Laying there on the hospital bed your eyes were narrow, blue and red
You took a draw of breath and said to me

You saw the masterpiece, she looks a lot like me
Wrapping my left arm round your right
Ready to walk you through the night

Old friends, old mothers, dogs and brothers
There's only so much letting go you can ask someone to do
So I keep you by my side, I will not give you to the tide
I'll even walk you in my stride, Marie

Cause I saw the masterpiece, she looks a lot like you
Wrapping your left arm round my right
Ready to walk me through the night
