

## Seam

Big Thief

This whole world is dying  
Don't it seem like a good time for swimming?  
Before all the water disappears

Ever since the day we met  
I loved you and I don't regret  
The way we passed the time  
Drinking coffee, drinking wine  
Oh, my heart has holes in it  
And there you were exposing it  
How I would lose my mind  
To get lost only to find

This whole world is dying  
Don't it seem like a good time for swimming?  
Before all the water disappears

You came in like some good things do  
Out of nowhere, dream come true  
And showed me things I never knew  
What it means to walk that line  
And like a moth into the sun  
I flew in front of everyone  
And burned up in the flame  
Now it's pouring acid rain

This whole world is dying  
Don't it seem like a good time for swimming?  
Before all the water disappears

Now our love is dying  
Don't it seem like a good time for kissing?  
One more kiss, one more kiss to last the years
