

## Another Life

Big Time Rush

I don't recognize the room I'm waking up in  
I don't see the way I look in my reflection  
And time is passing even faster by the second  
I wanna live in every moment while I still can

I'm not gonna wait for another life  
I don't wanna wake up and wonder why  
Why I didn't love more  
Why I didn't trust more  
I didn't try to see the good in things  
I'm not gonna wait for another life  
To feel alive

I used to be like everybody else around me  
Yeah, driving in the fast lane, sitting in the back seat  
They don't remember you for chances you don't take  
So I'mma risk it all, even if it kills me

I'm not gonna wait for another life  
I don't wanna wake up and wonder why  
Why I didn't love more  
Why I didn't trust more  
I didn't try to see the good in things  
I'm not gonna wait for another life  
To feel alive  
To feel alive  
To feel alive  
To feel alive
