Like Nobody's Around Want you to cry 'Cause you're laughing so hard tonight Playing air guitar alright We're being who we are even if they hate that Want you to shout At the top of your lungs about All our favorite songs so loud We'll be singing along even if they hate that Turn up the radio So what if we lose control Get a little bit rock and roll, oh whoa oh So throw your hands in the air Come on and make this count It's only you and me, never mind this crowd Do the way you do it Do it like nobody's around, whoa So put your hands in the air Come on and waste no time It doesn't really matter if it's wrong or right Do the way you do it Do it like nobody's around We can do it like nobody's around Don't hesitate, Be as dumb as you like

Don't hesitate,
Be as dumb as you like
You may
Miss the time of our lives,
So stay
You're dancing under the lights
Even if they hate that

Turn up the radio So what if we lose control Get a little bit rock and roll, oh whoa oh

So throw your hands in the air
Come on and make this count
It's only you and me, never mind this crowd
Do the way you do it
Do it like nobody's around, whoa
So put your hands in the air
Come on and waste no time
It doesn't really matter if it's wrong or right
Do the way you do it
Do it like nobody's around
We can do it like nobody's around

Some day when you're alone
And feeling whatever
You're gonna remember
The times
When we were dancing alone
And holding fake microphones
I hope those memories can make you feel alright

Turn up the radio So what if we lose control Get a little bit rock and roll, oh oh oh

So throw your hands in the air
Come on and make this count (whoa whoa)
It's only you and me, never mind this crowd
Do the way you do it
Do it like nobody's around, whoa
So put your hands in the air
Come on and waste no time
It doesn't really matter if it's wrong or right
Do the way you do it
Do it like nobody's around
We can do it like nobody's around

Whoa oh oh oh
We can do it like nobody's around
Whoa oh oh oh
We can do it like nobody's around
Yeah yeah yeah
Whoa oh oh oh
Yeah yeah yeah
We can do it like nobody's around
Yeah yeah yeah
Whoa oh oh oh
We can do it like nobody's around
